Rescuing the ER by Design

Construction and design firms...
 Rescuing the ER...
 by Steve Wiser, AIA

JRA Architects strives to be a leader in healthcare design and construction by writing articles for publications as well as making presentations across the country. Provided below is a representative listing of these articles and presentations. To obtain a copy, email Steve Wiser at Wiser@JRArchitects.com and please note which specific item(s) you would like to receive.

Articles:

- Site Selection for Healthcare Facilities
- Golden Rules of Healthcare Construction
- Minor Details / Major Costs in Healthcare Construction
- Construction Phasing for Healthcare Facilities
- Bariatric Design for Healthcare Facilities
- Emergency Department Design
- Selecting a Healthcare Designer
- Controlling Healthcare Construction Costs

Presentations:

- Supersizing the Healthcare Facility for Bariatric Patients
- Visualizing Expectations
- Avoiding Construction Pitfalls

Books

Steve Wiser has also independently authored the book "No Surprises: Minimizing Change Orders in Hospital Construction".

If there is a specific topic that you would like to receive feedback / more info on, then email Steve Wiser at Wiser@JRArchitects.com and he can research the data if he does not already have it prepared (which he most likely does.)
